#### BRANDYMASTER'S NOTES

Korbel XS Brandy is blended to be the ultimate in luxury and smoothness. We blend our fine Korbel California Brandy with the finest in natural flavors for an incredible taste sensation.

After aging the brandy in small oak barrels, we add small amounts of premium vanilla, natural orange essence, spices and pure cane sugar. The result is a sinfully luxurious flavor sensation.

Try Korbel XS with your favorite mixer for a cool summer sipper, or all-by-itself for a nice winter warmer.

Korbel is the only major brandy maker in the US which still maintains total control of its own wine making, brandy distillation, barrel aging, blending and bottling. Our own people, in our own facilities, closely control every step of the brandy making process.
